

BULLHILL ranch

**“More Bull for Your Buck” Sale
January 15th, 2022
Gray Court, SC**

Dear Cattlemen and Friends:

Welcome to our 11th annual production sale which features a great selection of bulls and heifers produced with the commercial cattleman's needs in mind. We are very excited to be hosting this year's sale at the ranch, and we are looking forward to seeing everyone. This marks the thirty second year in the Red Angus seedstock business for Mr. and Mrs. Meeks, and their goals of providing easy keeping, productive and attractive cattle that will thrive and be profitable for Southeastern cattlemen, have not changed. I believe that **Red Angus** cattle offer more value than any other beef breed because they excel in so many economically relevant traits. Red Angus influenced females continue to be the most sought after cows in the beef industry because of unsurpassed fertility, longevity and maternal power! **Marketing options for Red Angus sired steers continue to grow every year, and recently, the USDA recognized Red Angus and Red Angus influenced cattle as being eligible for inclusion in Angus branded beef programs!** This year many of our bulls are identified by the Top Dollar Angus logo, which identifies animals with carcass traits in the top 25% of the breed. Calves sired by these bulls are eligible for marketing options with the Top Dollar Angus program. Independent research evaluating three million feeder calves over a five year period shows that Red Angus sired calves out sold all other breed groups! As excitement and acceptance of the breed continues to escalate, the time to "Be Red" is "Right Now!"

We challenge our cattle to excel in a no frills environment, that often includes drought, heat, flooding, insects and endophyte, and the bulls and females being offered to you today have passed the test. Whether you are looking for calving ease, growth, maternal traits or carcass merit, our Red Angus can meet your needs, and they'll do it efficiently with added heat and fescue tolerance. We continue to strive for predictable and sustainable performance from our cattle every day, and we measure our success one satisfied customer at a time. Buy with confidence, knowing that we will stand behind our cattle with marketing assistance and beef industry experience to help you literally bring more beef to the table in the years ahead and more profit to your operation. If I can be of assistance in selecting animals to meet your needs or answering any questions, please give me a call. We look forward to the opportunity to earn your business.

Sincerely,

Raymond Prescott, Mgr.
Bull Hill Ranch

***Bull Hill Ranch 11th Annual
More Bull for Your Buck Production Sale
January 15th, 2022
Selling 32 bulls and 35 heifers***

**LIVE
ONLINE
BIDDING**

go to *TopShelf-Auctions.com* to create an account and complete pre-sale registration.

- View/bid online in Real Time
- **Registration is required. Please register at least one (1) hour prior to sale time.**
- **High Speed Internet is required.**
- Terms: By purchasing online; you are entering into a binding contract between yourself and the seller(s) and that you will be held financially responsible for your purchases. All purchases must be paid within five (5) days of sale date and prior to load out or delivery of cattle purchased. An invoice with payment instructions will be sent to the buyer by e-mail at the close of sale.
- TopShelf-Auctions.com is a service provider and is not responsible for the activity or inactivity of any technology, internet connection at the sale site or connection and technology of the bidders.
- For more information contact Dan Wells 740-505-3843 or danwells@topshelf-auctions.com

Pre Sale Schedule

January 13th, Online presale bidding opens on every lot in the catalog on **Top Shelf Auctions website**.

January 15th, 10:00 am, Cattle available for viewing.

January 15th, 12:00 noon, Lunch will be served at the ranch.

January 15th, 2021 at 1:00 pm eastern time, Live, in person Cowboy Auction begins.

If you are unable to attend, you must be registered as a buyer on Top Shelf Auctions or use one of the phone lines below to bid on the cattle. Cattle sell in catalog order.

***Please call and set up a time to come and view the cattle during the week prior to the sale if you are unable to attend the sale in person this year.

Sale Day Phones

(864) 981-2080

Top Dollar Angus Feeder Calf Program

Promote Your Verified Genetic Investment

Top Dollar Angus is the industry leader in third-party genetic verification and marketing assistance for superior Angus and Red Angus-based feeder cattle. Our program stamps a unique identity on the 'best of the best' by verifying and then showcasing their genetic merit. The Top Dollar Angus team works directly with a large number of feedyards and buyers to provide them with documented superior

feeder cattle, coupled with genetic risk mitigation and the precision understanding they need to pursue your cattle with absolute confidence.

Top Dollar Angus enables cow-calf producers to benefit from the genetic value already built into their herds. Producers that invest in high-end genetics, as well as strong health and nutrition programs, need a means of positively differentiating their calves from average cattle. Top Dollar Angus does that. Industry demand is strong for genetically superior feeder calves with the right supporting documentation. Don't make buyers guess, let them know by putting the Top Dollar Angus badge of honor on your premium genetic investment.

Contact our team for more information and a free evaluation.

They were dewormed with Long Range injectable dewormer in May of '21 and again with a pour on dewormer on 11/23/21. **Current weights will be available with other information on a supplement sheet on sale day.**

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animal's retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)
