

“More Bull for Your Buck” Sale

January 18, 2025 - Gray Court, SC

BULLHILL
ranch

DVAuction

Broadcasting Real-Time Auctions

Dear Cattlemen and Friends:

While 2024 delivered the challenges of cicadas, army worms and damaging hurricane force winds, it also contained a thriving cattle market and growing demand for Red Angus genetics! We are blessed to provide our customers with cattle that excel in challenging situations, and we're proud to mark 35 years as a Red Angus seedstock supplier. Looking ahead, the US cowherd needs to rebuild from record low herd numbers to meet the ever growing demand for beef, which continues to be the most favored protein source for households worldwide. We believe that **Red Angus** cattle offer more value than any other beef breed because they excel in so many economically relevant traits. Red Angus influenced females continue to be the most sought after cows in the beef industry because of unsurpassed fertility, longevity and maternal power! **Marketing options for Red Angus sired steers are growing every year. Red Angus and Red Angus influenced cattle are now used in numerous Angus branded beef programs, and the Genetic Merit Pricing concept is opening more doors for high quality Red Angus genetics. This year, nearly half of our bulls are identified by the Top Dollar Angus logo, which identifies animals with carcass traits in the top 25% of the breed. Calves sired by these bulls are eligible for marketing options with the Top Dollar Angus program, and are highly sought after by order buyers and packers.**

From the beginning Mr. and Mrs. Meeks wanted to provide easy keeping, productive and attractive cattle that would thrive and be profitable for Southeastern cattle producers. We challenge our cattle to excel in a no frills environment, that often includes drought, heat, flooding, insects and endophyte, and the bulls and females being offered have passed the test. Whether you are looking for calving ease, growth, maternal traits or carcass merit, our Red Angus can meet your needs, and they'll do it quietly and efficiently with added heat and fescue tolerance. We continue to strive for predictable and sustainable performance from our cattle every day, and we measure our success one satisfied customer at a time. Buy with confidence, knowing that we will stand behind our cattle with marketing assistance and beef industry experience to help you literally bring more beef to the table in the years ahead and more profit to your operation. If I can be of assistance in selecting animals to meet your needs or answering any questions, please give me a call. We look forward to the opportunity to earn your business.

Sincerely,

Raymond Prescott, Mgr.
Bull Hill Ranch

*Bull Hill Ranch 14th Annual
More Bull for Your Buck Production Sale*

January 18th, 2025

Selling 36 bulls and 50 heifers

Pre Sale Schedule

January 18th, 9:30 am, Cattle available for viewing.

January 18th, 11:30 am, Lunch will be served at the ranch.

January 18th, 2025 at 12:30 noon eastern time, Live, in person Cowboy Auction begins.

If you are unable to attend, "come to the sale" on DV Auction.com to bid and buy cattle. Cattle sell in catalog order.

Sale Day Phones

(864) 981-2080

(864) 981-1217

(864) 981-5737

Lot 78, 359X

Lot 81, 363X

Lot 84, 368X

Lot 85, 443X

Lots 37-89 were vaccinated twice with Vision 7 Somnus and Virashield 6 prior to weaning and revaccinated with Vision 7 and Triangle 10 on 12/20/24. They were dewormed with Safeguard drench dewormer in May of '24 and again with a pour on dewormer during the fall of 2024. Current weights will be available with other information on a supplement sheet on sale day.

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW..... Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW..... Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW..... Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI..... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK..... Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB..... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW..... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

RED ANGUS

RANCH TESTED. RANCHER TRUSTED.

A-BAG-A-BULL

If you purchase a bull from us, we will provide you with credit equal to the value of one bag of Feeder Calf Certification Program or Allied Access tags for each bull you purchase. To redeem your credit, bring your receipt for the tags to next year's sale and we will apply it to your bull purchase.

The FCCP provides age, source and genetic verification for calves sired by registered Red Angus bulls. Cattle enrolled in the FCCP are accepted into the exclusive Choice+ and G.O. Red grids. The FCCP 'yellow tags' are recognized by buyers nationwide and return a premium for Red Angus calves enrolled in the program.

The Allied Access program provides age and source verification for commercial cattlemen whose bull battery does not exclusively contain registered Red Angus bulls. Whether you are utilizing multiple sire breeds or halfblood bulls, enrolling in Allied Access demonstrates to buyers that you are taking an extra step in marketing your calves and adding value throughout the production chain.

To enroll in the FCCP or Allied Access, contact the Red Angus marketing department. Enrollment is simple and free of charge.
